DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The applicant's amendments have overcome previous 102 rejections.
3. The applicant has further defined the specific surfaces from which scale is removed as well as requiring the inclusion a reducing agent and a small portion of chelating agent. The Baum references in contrast requires an additional pre-clean step as well as teaching the removal of scale from a steam generator and not free span tube surfaces.
4. Similarly Rootham, Banks and McIntyre teach cleaning of heat exchangers and steam generators but fail to teach the specific substrate now required by the instant claims. Furthermore, the prior art fails to teach or suggest the corrosion rates and porosity required by the remainder of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

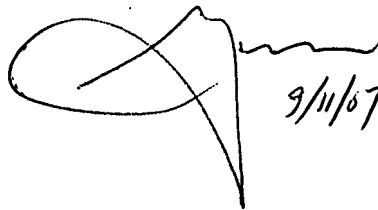

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglass McGinty can be reached on (571)272-1029. The fax phone
